

WINTER MULTI ACTIVITIES IN GREENLAND

PROGRAMME

📍 Jour 1 Welcome to Greenland!

It is a scenic flight over snow-capped peaks to ilulissat airport - we will greet you at the airport and travel a further 20 kilometres north together. Depending on the conditions we will travel by boat or snowmobile across the floe ice or through iceberg filled waters to find the isolated settlement of Oqaatsut. This tiny village is home to only about 45 people who live in traditional coloured houses. Enjoy a presentation of the trip to come and a hot meal

prepared by your guide. Our basic accommodation here at the end of the world has breathtaking views of the ice sheet and icebergs.

Accommodation: Hostel

Transport: By boat and/or snowmobile

📍 Jour 2 Hiking with dogs and Greenlandic Traditions

Snowshoes on and dogs harnessed to us, we set off to explore our surroundings like Eskimos before us, by nordic walking with dogs - a unique experience of trust and sharing. As we progress over the ice floe, discover Greenlandic seal hunting and cod fishing techniques and learn essential polar explorer skills. This evening, Bertheline, the Dean of the village, has invited us into her home to share an authentic kaffemik and to talk about the

evolution of the way of life in this small Greenlandic village. Conditions permitting we should be able to enjoy the aurora borealis from the comforts of our warm home tonight.

4 to 5 hours of snowshoeing with dogs

Accommodation: Hostel

📍 Jour 3 **Dog sledding, snowshoeing and northern lights**

Meet our local mushers and dogs who will help us master the art of Greenlandic dog sledding. This traditional activity is still used to transport game across the ice during hunting trips. We set off across the ice in twos with our own pack of beautiful dogs to explore the fascinating and surprisingly varied universe of the ice sheet. Look out for seals basking in the sun on the icebergs. We wave goodbye to our dog sleds at the foot of the valley, strap on our snowshoes and hike back through the hills enjoying majestic views over the bay.

2 hours dog-sledding and 3 to 4 hours snowshoeing

Accommodation: Hostel

📍 Jours 4 à 5 **Mini snowshoeing/skiing expedition**

Get ready, today we load up pulks and head off into the wilderness. You can choose to use snowshoes or skis. We begin by crossing the village, an adventure in itself with curious school children and dog-sleds galore; soon we are alone, weaving our pulks through battered granite hills, carved by the ice and weather. Tonight we sleep in a small heated cabin with a large bay window from which we can enjoy views of the remote wilderness around us. If luck is on our side, our panorama will be illuminated by the green glow of the dancing northern lights. Our journey continues back the next day through a beautiful land of frozen lakes to our hostel in Oqaatsut. Evening meal at a local traditional restaurant in Oqaastut (payable locally).

4 to 5 hours of snowshoeing, elevation 400m

Accommodation: Traditional cabin then return to our hostel

📍 Jour 6 **Snowmobiling to Ilulissat**

This morning is our last chance to enjoy the silence of this tiny village at the end of the world. The journey to Ilulissat on snowmobiles through the snowy mountains does not disappoint. Depending on the conditions we will zoom across the ice sheet or along the coast, enjoying views of the vast wilderness and iceberg littered waters.

2 hours of snowmobiling

Accommodation: Guesthouse

📍 Jour 7 **Hiking Ilulissat Icefjord**

An exceptional day to end our Greenlandic adventure. Strap on your snowshoes, today we head to the famous Icefjord through Sermermiut Valley, home to an abandoned Inuit settlement. This UNESCO World Heritage Site is truly spectacular; huge ice cathedrals remain trapped in the fjord and the panoramic views are unbeatable.

4 to 5 hours of snowshoeing, elevation 400m

Accommodation: Guesthouse

📍 Jour 8 **Final morning**

Enjoy a morning at leisure in Ilulissat - a final chance to visit Ilulissat Museum or to buy souvenirs in this iconic Greenlandic town which is home to as many sled dogs as people!

Matériel

We prefer that you do not wear cotton clothing, including underwear, when participating in activities. When cotton gets wet from water or sweat it ceases to insulate and it does not dry fast. The best materials for outdoor activities are fast drying materials like polyester or materials which are warm when wet like wool. The most powerful materials against the wind and rain are 'breathable' materials like Gore-Tex or Nikwax.

Our advice for keeping warm

Winter in Greenland can be very cold, please think carefully about what clothes you bring, although we will provide warm outer layers, the layers you wear next to your skin make the biggest difference.

We recommend:

- No cotton
- Bring dry spares of everything, even underwear and gloves
- Wear multiple layers including:
 1. A warm breathable base layer
 2. A second thermal layer
 3. Wind and waterproof protective out layer (we provide an additional quality jacket and over trousers)

Bagages

Please bring a small rucksack to use as a day bag. You can bring this as hand luggage on the aeroplane. You will carry your lunch, water, spare layers and any personal medication with you each day in this bag. You will also need a larger bag to store your other clothes and belongings in, please ensure that this is a soft bag like a rucksack or holdall rather than a hard cased suitcase because it is more practical to transport. We recommend packing all of your clothes in plastic bags so that they stay dry in the event of wet weather.

Pharmacie

Your guide is a trained first-aider and will carry a full first aid kit at all times during the trip in case of emergencies. We recommend that you bring a small personal first aid kit containing any medication you may need such as inhalers, plasters, antiseptic and painkillers.

Climat

This trip runs during March and April when temperatures normally range from -30°C to -10°C (-22°F - 14°F). Generally speaking Greenland is not very windy and we can anticipate calm weather with snow showers and perhaps sleet. Near the ice sheet temperatures can be very cold and there can be gusts of wind of up to 15 miles per hour. The air is low in humidity which means that the temperatures do not feel as cold as you might imagine and that the views are amazing - it appears that you can see further!

The length of the day varies significantly throughout the year. The shortest day of the year is 21st

December with no sunlight! The longest day, with 24 hours of sunlight, is 20th June. During March and April we can expect 16-20 hours of daylight. You can see the midnight sun from May - July and the Northern Lights year round when it is dark.

Electricité

Greenland uses Northern European electrical standards (50Hz/220 volts) and the standard Europlug socket with two round prongs.

Heure locale

Most of Greenland uses Coordinated Universal Time (UTC)/ Greenwich Mean Time (GMT) -3; most areas use Daylight Saving Time (DST).

Géographie

Area: 836,300 mi²

Population: 56,186 inhabitants (2016)

Capital: Nuuk

Languages: Kalaallisut or West Greenlandic, Danish is also widely used

Regime: Part of the Kingdom of Denmark but politically autonomous

Part of the continent of North America, Greenland is the largest island on Earth and it is covered by the largest ice sheet in the world outside of Antarctica.
